1. Underrepresented population categories for CEPH – Brigit Dermott led a discussion regarding how to designate underrepresented populations. It was agreed that PHHP's foreign national students are important for cultural competence. However, these students are not counted in overall demographics, so total number must be adjusted to reflect this omission.
2. PHHP faculty survey – Brian Moderie provided an update on the status of the faculty survey and noted that data collection will be at the department level.
3. PHHP diversity and cultural competence goals – discussion led by Cindy Toth led a discussion that centered on questions of retention. It was agreed that gathering data from junior faculty about issues related to retention would be useful.
