

PHHP Diversity Ad Hoc Committee

Meeting Agenda

March 11, 2013

9:00-10:00 am

HPNP 4102

1. PHHP diversity and cultural competence template – Brigit Dermott presented the template that will be provided to program directors in order to gather information about cultural competence teaching and service opportunities. A discussion followed about the possibilities for a core cultural competence course. It was noted that Public Health Concepts is a required course that has a strong cultural competence component. Ms. Schiaffino noted that AHRQ has an online course that might be used to create a cultural competence module.
2. Update on underrepresented population data - Brigit Dermott provided an update on data for CEPH section 1.8. A discussion followed regarding the comparison criteria for faculty. It was suggested that the population of faculty at universities and colleges across the US would be a reasonable point of comparison for the diversity of PHHP faculty. AP: Brigit will research the data and report back to the committee.

Important dates

April 8, 2013, 9:00 am: Next meeting
